

THE PACIFIC Commercial Advertiser.

SATURDAY, FEBRUARY 28.

Our California friends still persist in the idea, which will probably prove an expensive one, before they get through with it, that they can make the cultivation of sugar cane a profitable business in that state. A good deal of money has already been sunk in fruitless experiments. We find the following in the S. F. Bulletin of the 29th January: SUGAR CULTIVATION IN CALIFORNIA.—Attention has already been called to the fact that a proposed Sugar Cane enterprise in this State. A gentleman familiar with the cultivation of this crop in the Southern States, and who has thoroughly examined the question, says that it is confident that it can be made a success in this State. A trial is to be made in Fresno county this year, where at least twenty acres will be planted. The original intention was to put in seed from Louisiana, Mexico and the Hawaiian Islands. But it is now too late for the Louisiana seed. An invoice from Mexico has been received, and one from Honolulu is expected. An invoice of 5000 lbs of seed has also been received, and will be planted next month. Should these experiments prove successful—and the promoters appear to have no doubts on this point—the cultivation of sugar in California will in a few years become an important industry. Meanwhile the Hawaiian Islands are to be worked by American capital for all their sugar. The Hawaiian Islands are to be the central distributing point for half a dozen States and Territories. Two large refineries will be put in operation by the end of the year.

FOREIGN NEWS.

New York, Feb. 17.—The Sun's Washington special says: There is good reason to believe that the Hayes Administration has engaged to buy, or has in contemplation buying, a large tract of coal lands in Central America, and is negotiating for the entire region known as the Chiriqui Tract, with the view of holding a belt across the Isthmus. It is also believed that naval expeditions have rendezvoused already at the points indicated, to take possession of the land and to establish stations. It is also believed that the United States has the 4th of February the Adams, under command of John A. Powell, put out from San Francisco on a secret mission and under sealed orders, while sundry circumstances strongly indicated that her destination was Panama. Some where along the Central American coast are the Kezars, which left Key West February 23rd time a day, and a day probably Aspinwall; the Tuscara, the Constitution and possibly the Nipic, which at last accounts will soon proceed to Panama from Callao. The first point to ascertain is, under what title it is proposed to acquire these foreign lands. There is a glib response that the Chiriqui Tract and both bays belong to a private citizen, an American, at that, who has owned them for the past 20 years, and is now willing, like most holders of coal estates to sell them at any price. But obviously, proprietary rights in this sense are not all the Government has to deal with. There must be a national as well as individual claim involved. Accordingly, either Colombia or Costa Rica claims sovereignty over the new acquisition. More probably both do so, so that we shall have some chance of buying not only a foreign foothold but a national controversy. Whether under the guise of coal lands the Canal route project is concealed, remains to be determined. In the meantime, it may be well for Congress to exert itself to find out how far the country has already been committed in this matter, and where it is likely to come out.

New York, Feb. 16.—The Herald's Washington special says: There are talks in the Senate who are opposed to the United States taking steps like Italy to involve us in trouble on account of the Isthmus by calling on the President for all information in regard to any vessel which may be seen in the Isthmus. Those who are disposed to move in this matter claim that under the circumstances and in view of the complication to which this expedition may give rise, the sending of a vessel to the Isthmus is an exercise of the war powers, which do not belong to the Executive.

CHICAGO, Feb. 16.—The United Pacific Railroad Company notified its stockholders, that the proposed meeting here, that their proposition respecting rates per mile for the proposed canal to New York, with a rebate at New York, was not accepted, and that the company would not carry San Francisco passengers via St. Louis. The Chicago roads will attempt to intercept with this plan by an appeal to the Eastern trunk lines.

New York, Feb. 16.—The Herald's Colon special says: Engineers employed by Lessees to the task of surveying the site of the proposed canal and of estimating the probable cost of it, have been issued their reports. They unanimously favor a level canal. They estimate the cost at \$43,000,000 francs. De Lesseps will now publish a circular inviting American subscriptions to the value of half that amount. The work is to occupy eight years in accomplishment. Tolls are calculated at 15 francs per ton.

MANCHESTER, (N. H.) Feb. 15.—The Amoskeag, Manchester and St. Charles companies increase the wages of their employees, beginning March 1st from six to ten per cent.

New York, Feb. 12.—A Herald Washington special says: The House of Representatives today adopted the resolution here that the sum stand taken by the United States in the matter of the inter-oceanic canal will lead to the rejection of the inter-oceanic Powers, for the simple reason that the United States has not the money to carry out the project. The resolution here that the sum stand taken by the United States in the matter of the inter-oceanic canal will lead to the rejection of the inter-oceanic Powers, for the simple reason that the United States has not the money to carry out the project.

New York, Feb. 10.—The Times says of Kallioch's statement about Chinatown: This means that the Chinese are to be driven out of the city, unless Kallioch is mistaken. In any case, his strange speech will have an inflammatory effect upon the Kearseites.

New York, Feb. 7.—David Stanton, of England, won the bicycle race to-night for a purse and the championship of America. He made 50 miles in 3 hours, 6 minutes, 14 seconds.

LONDON, Feb. 15.—The Duchess of Marlborough, writing to the Lord Mayor of London, acknowledging the receipt of £2,000, says the money is in order to guard against famine in Ireland next year, have purchased £10,000 worth of potatoes for distribution there.

A correspondent of the Times at Dublin reports the general condition of Ireland decidedly improved. Although severe distress is still felt at many places, there is reason to believe that the worst of the country is improved, and that relief measures proved adequate for the emergency.

LONDON, Feb. 15.—A dispatch from London announces that orders have been sent to Canada for the army to advance to Chihuahua in March. General Roberts sent a native envoy to Chihuahua to confer with Mahomed Jan.

PERHAMB, Feb. 15.—In view of the expected attack on British troops around Cabul by the end of February, reports of the return of the British General Roberts's division to move up and reinforce General Roberts.

ROME, Feb. 15.—Professor Nordenkjöld arrived at Naples on the Vega yesterday, and had a magnificent reception. The city was decorated with flags and the shipping and city were gayly decorated with flags.

HALLFAX, Feb. 16.—It is reported the wife of Adam Murray, living near Glasgow, yesterday gave birth to five children, three girls and two boys, all fully developed and all doing well.

BERLIN, Feb. 14.—The Treaty with the Hawaiian Government has been presented to the Federal Council.

HAVANA, Feb. 13.—General Grant and party sailed this afternoon for Vera Cruz in the steamer City of Alexandria. The authorities who received the General accompanied him to the steamer. The party spent one day on the plantation of Las Canas, and left there last night, starting from La Union Station at 10 o'clock on a special train. Half an hour later the engine struck a cow and the

train went off the track, luckily without serious consequences. The fireman was wounded. The train was running on an embankment ten feet high at the time the accident occurred. The passengers had to wait until three o'clock for the next train, and arrived in Havana at 6 o'clock this morning.

BERLIN, Feb. 10.—The Vossische Zeitung says: The danger to European peace is no longer from France, but from Russia. Germany and Austria must watch her, and compel her to abide by the Treaty of Berlin.

NAPLES, Feb. 8.—An eruption of Mount Vesuvius began Saturday.

BERLIN, Feb. 7.—The Magdeburger Zeitung says it learns from Dresden that the betrothal of Austrian Prince Rudolph and Princess Mathilde, daughter of Prince George of Saxony, brother of the King, has been arranged.

From Our Wailua Correspondent. WAILUA, OAHU, Feb. 9th, 1880.

EDITOR OF THE ADVERTISER.—Our daily quiet little district has been constantly excited during the past year by a train of calamities such as perhaps has never been its misfortune before. On the 5th day of last February our esteemed fellow citizen, Mr. Henry Gordon, whose industry and plantation experience had made him universally known, and who was one of the proprietors of the Wailua Plantation, departed this life. About the 1st of September the schooner Jussara was wrecked at Kaula, in a calm sea, and in broad daylight. In the same month we were startled by the accidental shooting of a boy who was out hunting, which was duly notified at the time in one of your city papers. The Coroner held his inquisition three days after the affair happened, at which time the body was in such a state that it could not be inspected. The probabilities are that he was unintentionally shot by his companion. On the 12th of December the trash house of the Wailua Plantation was deliberately set fire to by a shipper of the same name, and the result was the loss of a large sum of money. It is also believed that naval expeditions have rendezvoused already at the points indicated, to take possession of the land and to establish stations. It is also believed that the United States has the 4th of February the Adams, under command of John A. Powell, put out from San Francisco on a secret mission and under sealed orders, while sundry circumstances strongly indicated that her destination was Panama. Some where along the Central American coast are the Kezars, which left Key West February 23rd time a day, and a day probably Aspinwall; the Tuscara, the Constitution and possibly the Nipic, which at last accounts will soon proceed to Panama from Callao.
